

EL DORADO HILLS Economic Index™

Our local economy finished 2015 with a slight decrease due to the performances from 3 out of the 5 Index components below. In Q4 15, our Index was down 3.9% from the previous quarter, although up 17.8% when compared to a year ago. While the overall Index is down, some of the components below noticed their highest grossing years in 2015.

According to input from local business leaders, we expect to see a stable performance in 2016, although we do not expect major growth. According to the El Dorado Hills Business Confidence Survey™ from January 2016, 52% of leaders expect a better local economy in the next 12 months, while 40% expect conditions to remain the same.
