About Us:

New York Life's mission is to provide financial security and peace of mind through our insurance, annuity and investment solutions.

We act in integrity and humanity in all our interactions with our policy owners, business partner and one another. Ground in both confidence and humility, we serve as stewards for the long term. We are here *for good*, reflecting both permanence of New York Life and our commitment to do the right thing in business and society. Everything we do has one overriding purpose: to be there when our policy owners need us.

Our promise? To work with you to build a strong financial future.

We have always believed in helping people like you, families like yours, and businesses of all kinds create, protect, and preserve their financial security. Since 1845, we've been doing just that—making sure our customers are prepared for whatever life has in store and that we will be there to help them face the future with confidence.

We're a lot like the clients we serve. Each of us is working hard to meet life's responsibilities and build our own futures. Funding retirement? Looking after aging parents? Dealing with the death of a family member? We've been there, and we've persevered through the toughest of times. So when we work with you, we appreciate that we are being trusted with your most important assets: your family and your business. We take that responsibility seriously. For over 170 years, we've kept every promise we've made to our customers. That's simply a fact.

We invite you to explore the depth of that commitment. »
